C5540 MFP

OKI
PRINTING SOLUTIONS

The fast, affordable Multifunction Product for demanding workgroups

With 128MB RAM as standard, the C5540 MFP is the first A4 MFP with the processing power and functionality to meet the needs of the most demanding workgroups. Fast, reliable printing and copying in colour and mono; PC faxing; network scanning to e-mail, FTP or archive; the C5540 MFP brings all this together in one compact affordable package.

High speed, low cost network printing.

If you need a network printer that can handle large documents and complex graphic files with ease, the C5540 MFP is the fastest most cost effective solution available. Delivering 16 pages per minute (ppm) colour and 24ppm mono at maximum resolution, it is 3 to 4 times faster than the best performing inkjet MFPs and costs far less than copier based products. With an optional duplex unit, which allows you to produce impressive double-sided documents and booklets quickly and confidently, you can print virtually anything your business needs in colour, in-house, in minutes.

Easy e-mail. Simple scanning.

Designed to make life easier the C5540 MFP is remarkably simple to use. The intuitive operator panel makes network scanning easy and provides access to e-mail and FTP address books at the touch of a button, so you can scan-in hard copy documents and e-mail them directly from your MFP, as easily as from your PC.

High speed, high quality copying.

For speed, for quality, for reliability, the C5540 MFP is quite simply the best MFP copier in its class. OKI Printing Solutions' market leading single-pass LED technology and the high quality scanner guarantee every copy is sharp, clear and consistent.

An intelligent choice for the intelligent business.

The C5540 MFP comes with the very best software including: ScanSoft® PaperPort® which enables you to easily file and store documents electronically, Optical Character Recognition (OCR) software which allows you to turn scanned images into editable text documents, and PC Fax software which allows you to send faxes from your PC without the need for a separate telephone line. What more could you ask for? Instant on-line advice? The 'Ask OKI' tab in your printer driver takes you straight to an information packed web site specific to the C5540 MFP.

PCL and PostScript language compliant.

C5540 MFP is also PCL and PostScript language compatible which means it can print all commonly used graphic files such as PDFs and Mac files to a fantastic quality, and at speed.

Highlights:

- **16ppm/cpm colour and 24ppm/cpm mono**
- **128MB Ram memory as standard with an optional 20GB Hard Disk Drive**
- **1200 x 600 dpi output resolution/48 bit, 4800 dpi scanning resolution**
- **Optional duplex functionality for double-sided printing**
- **Scan to e-mail, scan to FTP, and scan to archive**
- **ScanSoft® PaperPort® software makes filing and storing documents quick and easy**
- **Optical Character Recognition (OCR) software turns scanned images into editable text documents**
- **Template Manager software makes printing a range of document formats from business cards to banners, quick and simple**

C5500 Series
